

Church Benefits Association
Information Technology
Group

Our Mission

**The purpose of the Church
Benefits Association
Information Technology
Group is to leverage our
technology experience
and knowledge to better
support the missions of
our organizations.**

We Do This By

- **Sharing ideas and information pertaining to initiatives in each of our organizations.**
- **Discussing and evaluating technological trends and innovations that could add value for our organization's objectives.**
- **Soliciting outside experience to further augment our knowledge in new and emerging technologies relevant to our operations.**
- **Providing an Internet website forum where our discussions and information can be shared.**
- **Providing opportunities for networking among ourselves and others within our respective organizations.**

History

The Church Alliance Technology Group was formed at the request of the Church Alliance Steering Committee in May of 1998. When the Church Benefits Association was formed, we changed our group name to Church Benefits Association Information Technology Group. We meet two times a year. We've met and become familiar with each other's operations through a formal survey, individual presentations, and individual site tours.
